

Landscaping Features at Grand Marais Road and Pulford Street

The Windsor-Essex Parkway provides more than 300 acres of green space with landscaped areas, pedestrian bridges and tunnels and noise barriers. All of these features will work together to showcase how large-scale infrastructure and public uses can co-exist with natural habitat while considering the perspectives of drivers and adjacent residents. The following table describes features of noise barriers and landscaping elements in proximity to Grand Marais Road and Pulford Street.

NOISE BARRIER			LANDSCAPING ELEMENTS

Landscaping

The cross-section on the back of this page depicts the location and features of noise barriers and landscaping elements in proximity to Grand Marais Road and Pulford Street.

In summary, landscaping features depicted in this location include:

- low growing grasses along the trail edge
- Tallgrass Prairie from trail edge to the community
- grassland with seasonal wildflowers in roadside upland zone (closest to noise barrier)
- salt-tolerant grasses in roadside zones (closest to Highway 401 lanes)
- reinforced turf along the gated utility access lane on the east side of Highway 3.
