RE: UPCOMING CONSTRUCTION ACTIVITY- PILE DRIVING, NORTH TALBOT ROAD BRIDGE

Dear Resident,

As part of our commitment to keep residents and business owners informed about ongoing Windsor-Essex Parkway construction activities, we are writing to advise you of the upcoming construction works in your area.

Pile driving activities are required for the start of construction of Bridge 15/North Talbot Road Bridge. Construction of bridges and tunnels requires steel piles be driven in the ground for support.

Facca Inc. of Windsor will be constructing Bridge 15 including pile driving work on behalf of Parkway Infrastructure Constructors. Pile driving activities associated with Bridge 15 are anticipated to begin late next week and will continue over a duration of approximately one month. Throughout this period, pile driving will be limited to the daytime hours, between 6 a.m. to 8 p.m., Monday to Friday. We recognize that this work is scheduled over the holiday season. We commit to you that no pile driving will occur from December 24, 2011, to January 2, 2012.

Every effort will be made to reduce impacts to residents in adjacent areas. Pile driving is noisy and, in some instances, causes noise and vibration beyond the project limits. Pre-construction condition surveys have been conducted in those areas that are believed to be within an area of impact. Vibration will be monitored throughout the pile driving activities to ensure work is being carried out according to allowable standards.

To view a video of what you can expect during pile driving operations we encourage you to visit the following link from the Washington State Department of Transportation www.flickr.com/photos/wsdot/3532161758/.

A *Complaints Management Protocol* has been developed to address any concerns the public may have as a result of our construction activities. The Protocol is available on www.weparkway.ca. Should you have any questions or concerns please contact the Windsor Essex Mobility Group, Public Liaison Office at 1-877-WE-PKWAY (1-877-937-5929) or via e-mail at wep-plo@wemg.ca. We will treat any inquiries related to pile driving as a priority and work to answer questions and resolve concerns as quickly as possible.

We appreciate your cooperation during this time.

Yours truly,

Parkway Infrastructure Constructors
